REMARKS/ARGUMENTS

Claims 22-42 remain in the case.

Applicant has deleted former Claims 1-21, and added Claims 22-42, in order to more clearly define the present invention.

The present Claims 22-42, recite more clearly, the features and aspects of the present invention that are neither described nor enabled by the prior art reference cited by the Examiner. The recitation of those features and aspects in Claims 22-42 appear to render those claims patentable over the references cited thusfar.

In view of the above amendments and comments, it appears that this case is now in condition for a Notice of Allowance. Such further and favorable action is requested.

Respectfully submitted,

BLODGETT & BLODGETT, P.C.
